### § 3bis

For the purpose of allowing certain employees of the Company and its subsidiaries – to be determined by the Board of Directors – to participate in the Company, its share capital shall be increased by a nominal amount not exceeding CHF 28,253.70 from CHF 6,504,296.30 to no more than CHF 6,532,550 through the issue of a maximum of 282,537 new registered shares, to be fully paid-up, with a par value of CHF 0.10 each.

The acquisition of registered shares through the exercise of subscription rights in accordance with the participation plan and the subsequent transfer of the new registered shares are subject to transfer restrictions as set out in § 5 of these Articles of Association.

## § 3ter

The share capital may be increased in an amount not to exceed CHF 300,000 through the issuance of up to 3,000,000 fully paid-in registered shares with a par value of CHF 0.10 each through the exercise or mandatory exercise of conversion, option, subscription or other rights to acquire shares or through obligations to acquire shares, which were granted to or imposed on shareholders or third parties alone or in connection with bonds, notes, options, warrants or other securities or contractual obligations of the Company or any of its group companies (hereinafter collectively the Financial Instruments).

The subscription rights of shareholders shall be excluded upon the exercise of any Financial Instruments in connection with the issuance of shares. The main conditions of the Financial Instruments shall be determined by the Board of Directors.

Subject to statutory provisions, the Company is free to convert its shares issued in one of these forms into a different form at any time and without the approval of the shareholders. It shall bear the costs of any such conversion.

Shares issued by the Company in the form of individual certificates or global certificates bear the signature of at least one member of the Board of Directors. This may be applied in the form of a facsimile signature.

Shareholders are not entitled to have shares issued in a given form converted into a different form. In particular, they have no claim to the certification of the membership in a security. However, any

shareholder may at any time ask the Company to issue a certificate setting out the registered shares held by the shareholder according to the share register.

The transfer, and pledging as collateral, of intermediated securities that have shares of the Company as their underlying assets requires the involvement of the custodian at which the shareholder holds their securities account.

The General Meeting is authorized to convert registered shares into bearer shares and vice versa through an amendment to the Articles of Association.

### **§ 5**

The Company or a third party appointed by it records the registered shares in a share register containing the owners, usufructuaries and any parties holding restricted real rights over the shares, where this gives rise to voting rights, together with names and contact information. The Company must be notified of any change of contact information. Communications from the Company shall be deemed to have been validly made if sent to the last registered contact information in the share register. Entry in the share register is subject to the provision of proof that the shares were acquired in accordance with formal requirements and the Articles of Association.

Only persons entered in the share register as shareholders or usufructuaries are recognized as shareholders or usufructuaries vis-à-vis the Company.

Upon request, acquirers of registered shares shall be entered in the share register as shareholders with voting rights if they expressly declare that they have acquired these registered shares in their own name and for their own account and that there is no agreement on the redemption of the relevant shares and that they bear the economic risk associated with the registered shares.

The Board of Directors may enter individuals who do not expressly provide the declarations pursuant to para. 3 in their application for entry (nominees) in the share register as shareholders with voting rights up to a maximum of 3% of the registered share capital.

The Board of Directors may enter a nominee who holds more than 3% of the registered share capital in the share register as a shareholder with voting rights if the nominee in question provides the Company with the names, addresses and shareholdings of the persons for whose account the nominee holds 0.5% or more of the registered share capital. The Board of Directors may conclude agreements with such nominees governing matters such as representation of shareholders and voting rights.

The Board of Directors may, after questioning a shareholder or nominee who is entered in the share register, remove their entry with retroactive effect as of the date of their entry if this was made on the basis of incorrect information. The person in question must be informed of their removal immediately.

Legal entities and partnerships with legal personality that are connected by means of shared management in terms of capital or voting rights, or in any similar manner, along with individuals or legal entities and partnerships that act in a coordinated manner with a view to circumventing the restrictions on entry in the share register, are viewed as a single person in respect of this provision.

## § 6

The obligation to submit a public purchase offer pursuant to Article 135 and Article 163 of the Federal Act on Financial Market Infrastructures and Market Conduct in Securities and Derivatives Trading only arises if the limit of 49% of voting rights is exceeded (opting-up).

The Board of Directors may also submit additional motions as to compensation to the General Meeting for approval in relation to the same or different periods.

The total compensation for each member of the Executive Committee consists of fixed (incl. an expense allowance), short-term and long-term performance-related compensation elements, which are provided for in the short-term and long-term compensation plans, of social, pension and fringe-benefits provided for by law and regulations as well as of retirement benefits outside of the occupational pension scheme. The Compensation Report shall be submitted to the General Meeting for a consultative vote.

The short-term performance-related compensation plans are based on performance criteria, which include the performance of the DKSH Group and/or its sub-divisions and/or individual objectives. Achievement of objectives is generally measured in the one-year period to which the short-term plan applies. The Board of Directors or the Nomination and Compensation Committee, to the extent decision-making powers have been delegated, determine the performance criteria, the objectives and the degree of objective achievement.

The long-term, performance-related compensation plans are based on performance criteria, which relate to DKSH Group's strategic objectives (e.g. financial objectives, innovation, shareholder return and/or other benchmarks). These conditions may provide for the extension, accelerated vesting or other requirements concerning the allocation, acquisition or forfeiture of rights as a result of certain pre-defined events such as the termination of the employment or of the mandate. The Board of Directors determines the evaluation criteria for the individual compensation on the basis of the principles applying to the preparation of the Compensation Report.

The employment contracts of the Executive Committee members may provide for post-contractual non-competition undertakings up to a maximum of 12 months whereby neither the compensation for non-competition may not exceed the timely pro-rated fixed annual compensation prior to termination nor the average of the compensation of the last three financial years.

There shall be an additional amount of 30% of the maximum aggregate compensation already approved for the Executive Committee for the relevant compensation period available for all members of the Executive Committee being appointed after the General Meeting which already resolved the maximum aggregate compensation for the Executive Committee. This additional amount applies separately for each compensation period for which approval has been granted by the General Meeting. The General Meeting is not required to approve the actual additional amount used. The additional amount may also be used as compensation for disadvantages relating to the change of position (in cash or in the form of share-based compensation).

The Board of Directors may set forth all further details in one or more compensation regulations.

### **§ 29**

If the General Meeting rejects the maximum aggregate compensation for the Executive Committee proposed by the Board of Directors, the provision set out in § 20 shall apply *mutatis mutandis*.

### **§ 30**

The members of the Executive Committee may hold a maximum of 5 additional mandates in comparable functions at other enterprises with an economic purpose, whereby mandates in companies which are controlled by the Company or which do control the Company shall not count.
